Summary

Full Stack Software Engineer with experience building scalable web applications, REST APIs, cloud-native systems, and modern frontend applications using React, Next.js, Node.js, TypeScript, PostgreSQL, Docker, and AWS. Developed 100+ projects and contributed to multiple production-grade systems across software engineering, backend development, cloud infrastructure, and DevOps.

Technical Skills

Languages	JavaScript, TypeScript, Python, C, C++, Java, PHP, Dart, Rust, Go, HTML5, CSS3
Frontend	React, Next.js, Vue, Nuxt, SvelteKit, Flutter, React Native, Tailwind CSS, Redux
Backend	Node.js (Express), NestJS, Fastify, Django, FastAPI, Flask, Laravel, Spring Boot, Go Fiber
Databases	PostgreSQL, MongoDB, MySQL
Cloud & DevOps	Docker, Kubernetes, AWS, Oracle, Jenkins, CI/CD Pipelines, GitHub Actions, Linux, Cloud Computing, Nginx
Tools	Git, Firebase, Supabase

Professional Experience

Jan 2026–Present	Full Stack Developer Intern, Alphatech Enterprises, Dubai, UAE (Remote) - Developing a highly scalable enterprise gamified platform utilizing Flutter and Fastify. - Optimizing the existing e-commerce platform leveraging Flutter and Laravel to enhance overall performance and user experience. - Optimizing database query performance, significantly reducing load times and ensuring data integrity across application environments.
Aug 2025–Feb 2026	Technical Manager, PgBee, Trivandrum, India (Onsite) - Built the product workflow architecture and managed the Frontend, App, and Backend team leads for a comprehensive hostel management system. - Oversaw cloud infrastructure deployments to ensure high availability and continuous delivery of services.
Mar 2025–Feb 2026	Backend Developer Intern, IEEE Kerala Section, Kochi, India (Remote) Planned and started backend microservices utilizing NestJS and TypeScript.
2025–2026	Backend Developer Intern, SecNode, Berlin, Germany (Remote) - Engineered highly secure and optimized RESTful APIs utilizing Node.js and PostgreSQL. - Implemented robust authentication mechanisms and optimized database schemas for rapid data retrieval. - Handled cybersecurity initiatives, specifically focusing on Android application security and anti-phishing measures.
May 2025–Oct 2025	Frontend Developer Intern, MuLearn Foundation, Trivandrum, India (Remote) Engineered dynamic, responsive user interfaces utilizing React.js.

Software Engineering Projects

AURA (Resilience Ecosystem)

- Developed AURA, a decentralized IoT disaster detection system enabling autonomous hazard response, mesh communication, and resilient offline emergency coordination.
- Integrated IoT for real-time sensing and Machine Learning for intelligent decision-making.
- Deployed a high-performance FastAPI backend with a Rust-based Blockchain for secure records, paired with a Flutter frontend and n8n for smart automation.

Automated Security Analysis Platform

- Created microservices using Node.js and PostgreSQL to analyze uploaded Android APKs for vulnerabilities and generate comprehensive security reports.
- Integrated external cybersecurity testing tools into the system for automated threat detection.
- Implemented a phishing link analysis module that evaluates suspicious URLs and provides detailed vulnerability insights.

Space Mesh Network

- Architected a resilient, decentralized mesh network utilizing 3 satellite nodes powered by LoRa, Arduino, and Raspberry Pi.
- Developed an intermediate blockchain server for secure, tamper-proof data relay using Go (Fiber) and Rust.
- Built and integrated a reliable Node.js destination server to handle the final data ingestion and processing.

Open Source Contributions

Highlights

- **100+** software projects
- **3,000+** GitHub contributions
- Full-stack applications developed using React, Next.js, Node.js, Django, and FastAPI

Education

Aug 2023–Mar 2027 **Bachelor of Technology (BTech) in Industrial Engineering**, *College of Engineering Trivandrum (CET)*, Trivandrum, India

Jun 2020–Mar 2022 **Higher Secondary Education (Computer Science)**, *GHSS Punalur*, Punalur, India

Leadership

- 2024–2026 **Webmaster**, *NexeraCET*
Led web infrastructure and development as Webmaster for the 2024 and 2026 editions.
- Oct 2026 **Webmaster**, *IEDCCET*
Managed the digital presence and web platforms.
- Feb 2026 **Webmaster**, *AeroCET*
Directed web development and maintenance initiatives.

Achievements

- Hackathons 1st Runner Up at Coderecet x Armada Hackathon (2026) & 1st Prize at Satwa '26 National Hackathon (2026).
- Web Design 3rd Place at District Level Web Designing, Kollam (2020) & 2nd Place at Sub-district Level Web Designing, Punalur (2019).
